

**MOLDMAX**<sup>®</sup>  
MOLD ALLOYS

**EDRO** is now the exclusive distributor  
of **MoldMAX**<sup>®</sup> tooling alloys

**MOLDMAX**<sup>®</sup>  
MOLD ALLOYS

High conductivity alloys for the  
plastic mold industry

MoldMAX HH<sup>®</sup>

MoldMAX LH<sup>®</sup>

PROtherm<sup>™</sup>

MoldMAX XL<sup>®</sup>

MoldMAX<sup>®</sup> V

MOLD ALLOYS

| GRADE       | HARDNESS (HRC) | THERMAL CONDUCTIVITY (BTU/FT HR °F) | APPLICATION   |
|-------------|----------------|-------------------------------------|---|
| MoldMAX® HH | 40 HRC         | 75                                  | Injection Molds – longest life, Blow Mold components      |
| MoldMAX® LH | 30 HRC         | 90                                  | Injection Molds – fastest cycle, Blow Mold components     |
| MoldMAX® V  | 28 HRC         | 92                                  | Injection Molds – fastest cycle, Blow Mold components     |
| MoldMAX® XL | 30 HRC         | 40                                  | Injection Molds requiring good polishability, large sizes |
| PROtherm™   | 20 HRC         | 145                                 | Injection and Blow Molds, hot runner tips                 |
| P20         | 30 HRC         | 17                                  | Injection Molds   |
| H13         | 45-50 HRC      | 15                                  | Injection Molds   |
